### HÜCO Automotive GmbH

Die Herstellung hochwertiger Ersatzteile für den internationalen Markt der Fahrzeug-Elektronik ist die Aufgabe, der sich die HÜCO Automotive GmbH in Espelkamp seit nunmehr über 30 Jahren erfolgreich stellt. Ob Regler, Gleichrichter, Glühzeitrelais oder Drosselklappensensoren, Kraftstoffpumpen, Zündmodule, Zündspulen oder Luftmassenmesser – die Produkte der HÜCO Automotive GmbH bringen Ihr Fahrzeug immer zurück auf die Straße.

Als einer der größten internationalen Hersteller im Aftermarket von Ersatzteilen für europäische und asiatische Fahrzeuge, liegt unser besonderes Augenmerk auf der Qualität aller HÜCO Produkte und der Verantwortung gegenüber unseren Kunden.

Umfassende Qualitätssicherung und absolute Liefertreue sind nur zwei Aktivitäten, mit welchen HÜCO dieser Verantwortung begegnet. Seit Jahren sind unsere Werke nach DIN EN ISO 9001:2000 sowie seit 2007 am Standort Indien und seit 2009 auch am Standort Deutschland zusätzlich nach TS 16949:2002, zertifiziert

Diese neuen Maßstäbe zählen sich auch für Sie und unsere Endkunden aus: um unserem eigenen und Ihrem hohen Anspruch an die Qualität auch weiterhin gerecht zu werden, bieten wir seit dem 02.01.2009 eine erweiterte Garantie von fünf Jahren auf die Elektronik aller unserer Produkte (gemäß unseren Garantiebedingungen) unter dem Markennamen HÜCO.

Wir spielen auch in der Erstausrüstung vorn mit: seit Jahren sind wir Mitglied im VDA (Verband der Automobilindustrie). Im sogenannten Independent Aftermarket (IAM) sind wir ein „global player“ mit entsprechender Mitgliedschaft im Gesamtverband Autoteile-Handel e.V. (GVA), der sich auf europäischer Ebene für die Interessen des freien Aftermarkets einsetzt, sowie in der Automotive Aftermarket Industry Association (AAIA), dem US Pendant des GVA, und in der Automotive Parts Rebuilders Association (APRA).

Die Erhaltung der Umwelt ist ein weiterer Schwerpunkt unserer Arbeit: so sind wir Systempartner des Entsorgungskonzeptes PARTSLIFE, welches sich für eine umweltgerechte Entsorgung unserer Verpackungsmaterialien und der Produkte einsetzt. Selbstverständlich sind Müllvermeidung, Energiesparen und Recycling unser tägliches Handeln.

HÜCO zeigt international Verantwortung - No Child Labour Compliance - Seit Jahren haben wir einen eigenen Verhaltenskodex eingeführt. Dieser Kodex gilt ausdrücklich auch für alle Zulieferbetriebe. Heute arbeiten 100% unserer Zulieferer - und auch wir selbst - mit dem Anspruch, dass HÜCO Produkte unter menschenwürdigen Bedingungen produziert werden und auf Kinderarbeit gänzlich verzichtet wird.

Im branchenführenden Informationssystem TecDoc ist die HÜCO Automotive GmbH seit dem 01.10.2009 im Katalog geführt und versorgt den Ersatzteilmarkt mit ständig aktualisierten Produktdaten. Dem System des Datenverarbeiters DVSE (TecCat) gehört HÜCO bereits seit 2007 an und dem Lester Katalog, der ausschließlich auf dem nordamerikanischen Ersatzteilmarkt tätig ist, seit 2006. Das gesamte HÜCO Produktprogramm ist parallel auch über unseren Online-Katalog ([www.hueco.com](http://www.hueco.com)) abzufragen.

#### Hinweis

Die in den HÜCO Katalogen, CD-Rom und im Internet angegebenen OE Namen und Nummern dienen ausschließlich dem Vergleich. Technische Änderungen vorbehalten.

### HÜCO Automotive GmbH

More than 30 years ago, HÜCO Automotive GmbH in Espelkamp set itself the task of producing high-quality replacement parts for the international automotive electronics market – and has done so successfully ever since. Whatever you need – regulators, relays or rectifier assemblies, glow plug relays or throttle position sensors, ignition modules, ignition coils or ignition cables – HÜCO products are sure to get your vehicle back on the road again.

As one of the largest international manufacturers on the replacement parts aftermarket for European and Asian vehicles, our top priorities are the quality of our products and our responsibility towards our customers.

Comprehensive quality assurance and absolute delivery reliability are just two of the strategies HÜCO uses to meet this responsibility. For many years our production facilities have been certified according to DIN EN ISO 9001:2000. Additionally, since 2007 our plant in India and also our Headquarters in Germany since 2009 more been certified according to TS 16949:2002.

We set new standards for the automotive aftermarket. In order to meet both our own and your high quality requirements, we have been offering an extended warranty of five years since 02.01.2009 covering the electronics in all our products (in accordance with our warranty conditions) which are supplied under the HÜCO brand.

HÜCO is a global player as an OES and Aftermarket supplier: We have been a member of the German VDA (Automotive Industry Association) for many years. Since March 2009, HÜCO has been a member of the GVA (Association of Automotive Parts Traders) which represents the interests of commercial enterprises trading in Germany in automotive spare parts (passenger and commercial vehicles) and in the aftermarket for replacement parts. The GVA is a member of the FIGIEFA (Automotive Aftermarket Distributors) and seeks to promote the independent aftermarket at European levels. Furthermore, we are also a member of the Automotive Aftermarket Industry Association (AAIA) and the Automotive Parts Rebuilders Association (APRA).

The preservation of the environment is fundamental to HÜCO's company philosophy. HÜCO fulfils these objectives as a partner of the „PARTSLIFE“ initiative which encourages the environmentally-friendly disposal of our packaging materials.

No Child Labor Compliance – HÜCO also takes responsibility on the international stage. We introduced an own code of conduct some years ago, which also applies explicitly to all our suppliers. Today, together with 100 % of our suppliers, we have undertaken to ensure that HÜCO products are manufactured under decent working conditions and that under no circumstances child labor is used.

Since of October 2009, HÜCO Automotive GmbH will feature in the TecDoc catalogue, the industry's leading information system, supplying the replacement parts market with up-to-date product data. HÜCO has been part of the DVSE/TecCat system since 2007 and the Lester Catalog, covering exclusively the North American spare parts market, since 2006. The entire HÜCO product range can also be accessed in our online catalogue via [www.hueco.com](http://www.hueco.com).

#### Important note

The information provided in the HÜCO catalogue, CD-Rom and in the Internet is for reference only. HÜCO assumes no responsibility for the correctness of the indicated OE names and numbers and applications. Photos and drawings do not always correspond to the descriptions they are assigned to. Subject to technical modifications.

**Informationssysteme**

HÜCO hält eine Vielzahl von Informationssystemen für Sie bereit, mit deren Hilfe Sie sowohl einen Überblick über das komplette Produktprogramm, als auch über produktspezifische Informationen erhalten.

**Der direkte Draht**

Ein Anruf, eine Anfrage per Fax oder eMail genügen und Sie bekommen schnellstmöglich eine Antwort auf alle Fragen zu den Liefermöglichkeiten oder den HÜCO Produkten.

**Internet**

Schnell und immer aktuell - so stellt sich die HÜCO-Homepage der HÜCO Gruppe dar. Wir informieren Sie über unsere Produkte und das Unternehmen. Im Bereich der Online Kataloge haben wir umfangreiche Suchmöglichkeiten für Sie implementiert.

**Printmedien**

Verschiedene Kataloge und Flyer sowie eine CD-ROM, geben Ihnen einen Überblick über die unterschiedlichen Produktlinien im Bereich der Fahrzeugelektronik.

**Information systems**

HÜCO offers you a variety of information systems that give you not only an overview of our complete product range but also contain specific information on our products.

**Direct line**

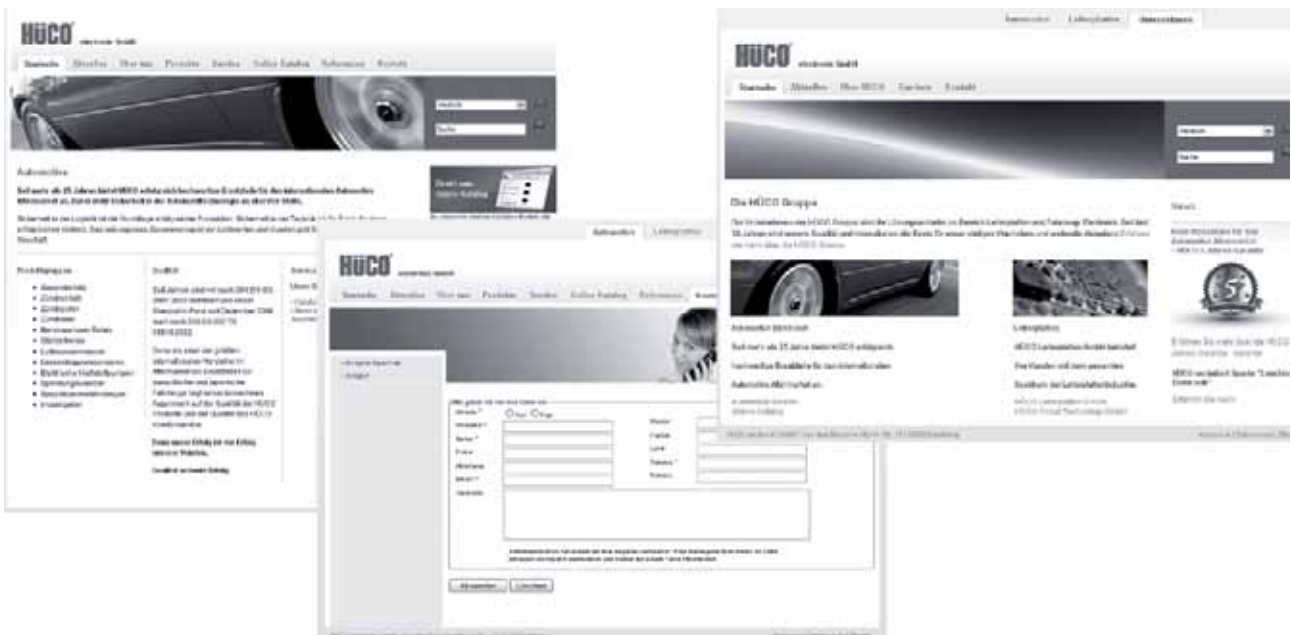

Just give us a call, send us a fax or email and we will respond to your queries regarding the HÜCO product range or delivery times as quickly as possible.

**Internet**

Fast and up-to-date - this presents our homepage . We inform you about our products and the company. In the area of the online catalogues we implemented extensive search options for you.

**Promotional Material**

A variety of catalogues and brochures as well as a CD-ROM provide information about the different product lines in the automotive electronic range.

# Produkt Informationen zu Zündmodulen und Luftmassenmesser

## Product Infos for Ignition Modules and Air Flow Meters

### HÜCO Zündmodule

Zündmodule sind ein integrativer Teil des Motormanagements. Dieses besteht aus mindestens den Hall- bzw. Impulsgebern, dem Zündmodul, der Zündspule und den Zündkerzen. Bei Fehlern im Zündmodul kommt es zu Fehlzündungen, „Stottern“ des Motors oder aber ein Totalausfall. In diesen Fällen müssen sie getauscht werden. Eine Reparatur ist i.d.R. nicht möglich, da die Teile zum einen sehr komplex sind, andererseits meistens mit einer Vergussmasse vergossen sind, so dass die Komponenten nicht frei zugänglich sind.

Zündmodule können grob in die beiden Untergruppen „Endstufe“ und „Pick-up/Hall“ Systeme unterteilt werden:

#### A) Zündendstufe

Die Zündendstufe ist mit mehreren internen Leistungstransistoren aufgebaut. Diese schalten den Primärstrom, der durch die Zündspule fließt. Sie begrenzen sowohl den Primärstrom als auch die Primärspannung, um Schäden an der Zündanlage zu vermeiden.

Zündendstufen sind entweder in der „Black-Box“ mit eingebaut, oder sind frei (meist in Kombination mit einer Zündspule) im Motorraum untergebracht. Dabei wirken starke Temperaturunterschiede, Feuchtigkeit und starke Vibrationen auf das Modul ein. Durch die hohen Ströme und der daraus resultierenden Verlustleistung werden die Bauteile innerhalb des Zündmoduls sehr heiß. Die entsprechende Hitze muß über Kühlbleche bzw. Kühlkörper schnell abgeleitet werden.

#### B) Pick-up und Hallsysteme

Die Pick-up und Hall Systeme bekommen ihr Input Signal von einem sogenannten Hallgeber oder einem Impulsgeber. Sie arbeiten das Signal intern auf und leiten es dann an die eingebaute bzw. externe Endstufe weiter.

Zündmodule sind sehr komplexe, empfindliche elektronische Geräte, die durch starke interne Belastungen sowie nicht optimale äußere Einflüsse relativ hohen Ausfallraten unterliegen. Im folgenden Teil sollen einige Ausfallursachen genannt werden:

#### 1. Falsche Referenz (zu OE)/falsche Umschlüsselung

Die häufigste Ausfallursache für ein Ersatzteil ist die falsche Umschlüsselung eines Teiles. Dies ist zum einen auf einfache Fehler wie Zahlendreher zurückzuführen. Andererseits sehen viele Teile extern gleich aus, sind aber intern anders aufgebaut. Werden diese Teiledann testhalber eingesetzt, werden sie durch die nicht auf sie abgestimmten Impulse zerstört. Im schlechtesten Fall können auch andere Teile der Zündanlage in Mitleidenschaft gezogen werden.

#### 2. Hohe Spannungsspitzen im Bordnetz, hervorgerufen durch:

Induktive Verbraucher

Kabelbruch, evtl. dadurch verursachter Kurzschluß, Massefehler etc.

Mangelhafte Kontaktierung z.B. der B+ Schelle

E-Motoren (elektrisches Schiebedach, Fensterheber, Anlasser etc.)

Überbrückung bei Starthilfe etc.

Spannungsspitzen können die eingangsseitigen Komponenten eines Zündmoduls beschädigen. Das Modul ist zwar gegen solche eventuellen Spitzen geschützt, kann jedoch trotzdem in Extremsituationen ausfallen.

#### 3. Mechanische Einwirkung

Montage fehlerhaft (Drehmomente). Sollten bei einer routinemäßigen Kontrolle oder dem Ersatz eines Zündmoduls die Befestigungsschrauben zu stark angezogen werden, so könnten die innen liegenden Hybride und/oder Komponenten beschädigt werden. Es ist deshalb darauf zu achten, die Schrauben nicht zu fest anzuziehen.

externe mechanische Einwirkungen (Feuchtigkeit, abnormale Vibrationen etc.). In der Regel wird vom Fahrzeughersteller ein geschützter Ort für den Einbau gewählt. Aber z.B. durch Steinschlag etc.

### HÜCO Ignition modules

Ignition modules, as you are probably aware, form an extremely critical integral part of the Motormanagement System, consisting at least of hall systems respectively transmitters, ignition modules, ignition coils and ignition plugs. In some cases, if the ignition module does not function correctly, causing the engine to misfire and toxic emissions to increase, a complete breakdown of the engine management system could result. If this happens the ignition module must be replaced. A repair of the module itself is virtually impossible, as the components are extremely complex, not to mention that all these components are encapsulated within epoxy resin to prevent contamination from the environment.

Ignition modules can be subdivided into two groups, „amplifiers“ and „pick-ups / hall systems“:

#### A) Amplifiers

The amplifier consists of different internal power transistors switching the primary current feeding the ignition coil. Transistors limit both the primary current as well as the primary voltage in order to avoid defects of the ignition system.

Amplifiers are either an integral part of the the „ECU „ or alternatively, mounted within the engine compartment (mostly in combination with an ignition coil). In this location, the module must withstand enormous variations in temperature, vibration and humidity, with under bonnet temperatures reaching 50 degrees centigrade easily. Coupled with the heat naturally generated by the module itself, it must withstand this hostile environment and still perform to specifications. The resulting heat has to be carried off quickly by cooling sheets.

#### B) Pick-up and hall systems

This type of pick-up based on the hall system receiving input signals from a transmitter. They recover the signal on an internal basis and then forward it to the internal amplifier or external amplifier.

Ignition modules are very complex, sensitive electronical components, which often fail due to enormous internal load rates and certain external influences. Several reasons for these failures are as follows:

#### 1. Incorrect cross reference (OE) /incorrect Application

Often the failure of a spare part is due to an incorrect cross reference. On the one hand there might be mistakes in the reference number itself and on the other hand many spare parts have the same configuration with different electrical characteristics within the circuit. If these parts are used on the wrong vehicle, they will be destroyed by the impulses, which do not correspond to them. In the worst case, this can also affect other parts of the ignition system causing permanent damage.

#### 2. High voltage peaks in mains power supply due to:

Inductive consumers (e.g. ignition coils, motors etc.)

Cable break, perhaps results in a short-circuit, failure in ground connection

Insufficient contact of e.g. B+ clamp

Electronic motors (electrical sliding roof, electrically operated windows, starters etc.

bridging (using jump leads) when giving starting assistance etc.

Voltage peaks can damage the electrical components of the ignition module. Even though the module is protected against those peaks, it can nevertheless happen under extreme situations.

#### 3. Mechanical influence

Incorrect installation (engine torque). The internal hybrids and/or components can be damaged, if the damping bolts are tightened too strongly when replacing an ignition module or having a routine inspection. For this reason, it has to be observed that the clamps must be at the correct torque.

External mechanical influence such as humidity or abnormal vibrations etc.

Most vehicle manufacturers safeguard that these components are placed in strategic under-bonnet locations to ensure the protection of

## Produkt Informationen zu Zündmodulen und Luftmassenmesser

### Product Infos for Ignition Modules and Air Flow Meters

kann es zu Schäden am Gehäuse, Stecker etc. kommen, was dann das Eindringen von Feuchtigkeit etc. bedingen könnte. Mit zunehmendem Alter des Fahrzeuges nehmen Vibrationen zu. Dies kann zu Verbindungsschäden führen.

#### 4. Temperaturen außerhalb der Spezifikation

Defektes Kühlsystem. Durch einen Ausfall oder eine teilweise geringere Leistung des Kühlsystems kann es temporär zu einer starken Hitzeentwicklung des Moduls kommen. Zusätzlich zu der intern entstehenden Wärme kann dies zur Zerstörung des Moduls führen.

Falscher Einbau (Wärmeabfuhr). Bei einigen Modulen muss darauf geachtet werden, dass die mitgelieferte Wärmeleitpaste unbedingt zwischen das Modul und das Gegenstück (i.d.R. ein Blech) gestrichen wird. Sie optimiert den Wärmeabfluss und erhöht somit die Lebensdauer eines Zündmoduls.

Falscher Einsatzort (externe Wärmequelle). Das Modul könnte vom OE Hersteller an einer nicht geeigneten Stelle platziert worden sein oder aber bei einer eventuellen Reparatur an falscher Stelle montiert sein.

#### 5. Andere Fehlerursachen

Geber defekt (Verteiler)  
Impulsgeber  
Steuergerät  
Zündkerzen  
Zündkabel

Alle diese Ursachen können das gleiche Erscheinungsbild wie ein defektes Zündmodul aufweisen. Sollten sie defekt sein, aber nur ein neues Zündmodul eingesetzt werden, kann es passieren, dass auch das neue Teil sofort durch den anderen Defekt wieder zerstört wird.

#### 6. Fehler bei der Produktion des Moduls

Lötbrücken: Würden zum Kurzschluß führen und das Teil schon bei der Endprüfung als defekt ausweisen

Lötfehler. Treten sehr selten auf da heute i.d.R. alle Lötungen im Lötbad oder auf Lötrobotern durchgeführt werden. Diese könne aber zu mangelndem Kontakt führen und würden dann bei der Endprüfung als defekt ausgewiesen.

Kontaktierungsprobleme. Die interne Schaltelektronik muß mit der Steckerleiste (externer Anschluß) verbunden werden. Bei Kontamination der Lötstellen/Bondstellen kann es zum Abriß der Verbindung kommen. Man unterscheidet zwischen Sofortausfällen (werden bei Endprüfung entdeckt) und Feldausfällen (fallen während des Betriebes aus). Letzterer Fall ist die eigentliche Ursache für Ausfälle von Modulen. Während der Garantiezeit sind sie durch den Hersteller abgesichert.

Bauteilfehler = Ausfall eines Bauteils. Insbesondere bei Verwendung von hochwertigen, selektierten Bauteilen ist diese Ausfallursache sehr gering. Auch hier unterscheidet man zwischen Sofortausfällen und Feldausfällen.

Sämtliche HÜCO Zündmodule werden nach neuesten Erkenntnissen entwickelt und dann in umfangreichen Tests auf ihre Robustheit hin untersucht. Dazu zählen Vibrationstests, Temperaturtests, Salzwassersprühstests, Schlagtests etc.. Nach Abschluss der Entwicklung und Produktion werden alle Teile vor Versand zu 100% endgeprüft. Somit ist gewährleistet, dass alle Geräte in Ordnung sind, wenn sie unser Lager verlassen.

Wir hoffen, dass Ihnen diese kurze Produktvorstellung einen kleinen Einblick in die Komplexität eines Zündmoduls gegeben hat. Sollten Sie weitere Fragen zu diesem Thema haben, wenden Sie sich bitte an uns. Wir werden Ihnen gerne weiterhelfen.

these parts. However there are always exceptions to the rule where module housings or plugs can be damaged causing the humidity to gain access to components causing failure. The older the vehicle gets, the more vibrations evolve from the engine also resulting in failures.

#### 4. Excessive Temperatures

Defective cooling system. The consequence of a failure or reduction in power of the cooling system can temporarily lead to excessive heat to the module, in addition to the normal ambient under-bonnet temperature, will reduce the normal life of the module.

Incorrect installation (heat flow). There are some modules, where it has to be observed that the heat conducting compound supplied with the module must be applied between the module and the heatsink (normally a metal plate). It optimises the heat flow, increasing the life of the ignition module.

Incorrect Location (external heat). The module could have been installed by the vehicle manufacturer in an inadequate place, ie close to the exhaust or may have been replaced by a mechanic to the wrong location during a service or repair.

#### 5. Other reasons for failures

Distributor  
Transmitter  
Modulator unit  
Spark plugs  
Ignition leads

It is extremely difficult to distinguish any of the above components with intermittent faults with that of a defective ignition module. All of these reasons can have the same characteristics as a faulty module. If any of these components are defective and the existing fault is not detected when a new module is fitted, this will almost certainly result in the destruction of the new module caused by the existing undetected fault.

#### 6. Possible Production Faults

Soldering tails: These would lead to a short-circuit and would be identified during final inspection.

Dry joints. These appear rarely today, because of „double wave“ soldering process or soldering robots, eradicating the probability of dry points

Contact problems. The internal switching electronics must be connected by an external connection plug. If there is contamination of this soldered connection an intermittent fault could develop. There is a difference between an immediate failure (detection during final examination) and a field failure (failure during operation). The latter is the most common cause of modules to fail. These failures are under guarantee during the warranty period given by us as the manufacturer.

Defect of components = failure of a selected component, used in the manufacture of our modules is extremely rare because of the high specification demanded from all our components suppliers.

All ignition modules produced by HÜCO are developed with the latest state of the art technology, with extensive life and field testing against original equipment perimeters. These tests involve vibration, temperature, salt water, impact etc.. In our final test all parts are verified 100% before dispatch. We guarantee all products are performing to specifications before leaving our stock.

We hope that this short product presentation gives you an insight into the complex structure of an ignition module. Should you have any further questions regarding this subject, please do not hesitate to contact us, we will be only too pleased to assist you.

# Produkt Informationen zu Zündmodulen und Luftmassenmesser

## Product Infos for Ignition Modules and Air Flow Meters

---

### HÜCO Luftmassenmesser

Ein wichtiges Kriterium bei der Entwicklung eines KFZ ist die Einhaltung der gesetzlichen Abgasnormen. Zur Einhaltung dieser Abgasnormen ist es unter anderem notwendig, das genaue Verhältnis von Luftmasse zu Kraftstoffmenge zu ermitteln. Die Ermittlung der Luftmasse übernimmt der sogenannte „Luftmassenmesser“.

Er dient zur Messung des Luftmassenstromes bei Verbrennungsmotoren (z.B. Benzin- und Dieselmotoren) und gibt dem Motormanagement bzw. der Einspritzanlage über seine elektronischen Ausgangssignale entsprechende Werte vor. Diese Werte benötigt das Motormanagement zur genauen Bestimmung der Einspritzmenge, abhängig von der momentan benötigten Leistung, dem Luftdruck und der Lufttemperatur.

### Aufbau

Der eigentliche Sensor ist im Strömungskanal des Stecksensors integriert. Diese Stecksensoren eignen sich für den Einbau im Luftfilter, wie auch in sogenannte Messrohre, welche im KFZ anzutreffen sind.

Ein elektronisches Messsystem wandelt die Daten des Sensors in entsprechende Messdaten für das Motormanagement / die Einspritzanlage um.

### Funktion

Das Funktionsprinzip basiert auf einer indirekten Messung des Luftstromes.

Ein Heizelement wird während des Betriebes bestromt und somit aufgeheizt. Die vorbeiströmende Luft verursacht nun ein Abkühlen des Heizelementes. Die so entzogene Wärme des Heizelementes gibt Aufschluss über die vorbeiströmende Luftmasse.

Je größer die Luftmasse, desto größer ist die Abkühlung des Heizelementes bzw. die so entstehende Temperaturdifferenz.

Die im Stecksensor integrierte Elektronik wertet diese Daten aus und ermöglicht so eine genaue Ermittlung der durchströmenden Luftmenge.

### Defekt / Produkt minderer Qualität

Wie kann sich ein Defekt eines Luftmassenmessers im Fahrzeug auswirken und wie macht sich ein Luftmassenmesser mit „minderer Qualität“ bemerkbar?

- Genereller Leistungsverlust
- Punktueller Leistungsverlust
- Unruhiges Motorverhalten
- Erhöhter Kraftstoffverbrauch
- Schlechte Abgaswerte
- Ausfall des Katalysators
- Ausfall des Kraftfahrs

### HÜCO Air Flow Meters

An important criterion for the development of an automobile is the compliance with the legal emission standards. In order to adhere to these emission standards it is, amongst other things, necessary to ascertain the exact relationship between the air mass to the fuel quantity. The ascertainment of the air mass is undertaken by the so-called “Air Flow Meters”.

It is used to measure the air mass flow in combustion engines (e.g. petrol and diesel motors) and provides the motor management or the fuel-injection system with relevant values via its electronic output signals. These values are needed by the motor management in order to exactly define the injected fuel quantity, dependent on the currently needed performance, the air pressure and the air temperature.

### Assembly

The actual sensor is integrated in the flow channel of the pluggable sensor. These pluggable sensors are suitable for the installation in the air filter, as well as in so-called gauge tubes, which one can find in automobiles.

An electronic measuring system transforms the sensor data into corresponding measuring data for the motor management / the fuel-injection system.

### Function

The functional principle is based on an indirect measurement of the air current. A heating element is supplied with power during operation and thereby heated up. The on-rushing air now causes a cooling down of the heating element. The heat that is detracted from the heating element gives information about the on-rushing air mass. The larger the air mass, the larger the cooling down of the heating element is respectively the thereby created temperature difference.

The electronics that are integrated in the pluggable sensor analyzes this data and thereby allows for a precise ascertainment of the on-rushing air quantity.

### Defect / Product of sub-standard quality

What are the effects of a defective air mass flow meter for an automobile and how can one recognize an air mass flow meter of “sub-standard quality”?

- General performance loss
- Occasional performance loss
- Unsettled motor behaviour
- Heightened fuel consumption
- Bad emission values
- Malfunction of the catalytic converter
- Breakdown of the automobile

ARTIKEL / ARTICLE	HÜCO-NO.
<b>WÄRMELEITPASTE</b>	13 8099
zu verwenden bei der Montage von HÜCO Zündmodulen. Die silikonhaltige Wärmeleitpaste verbessert den Wärmeübergang und ist elektrisch nicht leitend.	

Füllgewicht: 70g

**HEAT CONDUCTING COMPOUND**  
to be used for the mounting of HÜCO ignition modules.  
The heat conducting compound, contacting silicon, improves the heat transfer and does not any electricity.

Weight: 70g

**MONTAGEANLEITUNG / MOUNTING INSTRUCTIONS**

- |  |   |
|--|---|
| <ol style="list-style-type: none"> <li>1. Vor Beginn der Montage Massekabel (-) von der Batterie abklemmen.</li> <li>2. Defektes Zündmodul vom Zündverteiler abschrauben</li> <li>3. Modulkontaktplatte und Montagefläche mit Wärmeleitpaste (13 8099) bestreichen.</li> <li>4. Zündmodul am Zündverteiler anschrauben (siehe Zeichnung). Empfohlene Drehkraft 1,0 - 1,5 Nm</li> <li>5. Nach Abschluß der Montage Massekabel (-) wieder anklemmen</li> </ol> | <ol style="list-style-type: none"> <li>1. Before beginning work disconnect the earth cable (-) from the battery</li> <li>2. Remove the defective ignition module from the distributor</li> <li>3. Coat module contact plate and mounting-surface with heatconducting paste.</li> <li>4. Screw ignition module to distributor (see drawing). Recommended torque 1,0 - 1,5 Nm</li> <li>5. When mounting is complete reconnect earth cable (-).</li> </ol> |

# Allgemeine Verkaufs- und Lieferbedingungen

## Garantiebedingungen 01/2011

### I. Allgemeine Bestimmungen

1. Für den Umfang der Lieferungen oder Leistungen (im Folgenden: Lieferungen) sind die beiderseitigen schriftlichen Erklärungen maßgebend. Allgemeine Geschäftsbedingungen des Bestellers gelten jedoch nur insoweit, als der Lieferer oder Leistende (im Folgenden: Lieferer) ihnen ausdrücklich schriftlich zugestimmt hat.
2. An Kostenvorschlägen, Zeichnungen und anderen Unterlagen (im Folgenden: Unterlagen) behält sich Der Lieferer seine Eigentums- und Urheberrechtlichen Verwertungsrechte uneingeschränkt vor. Die Unterlagen dürfen nur nach vorheriger Zustimmung des Lieferers Dritten zugänglich gemacht werden und sind, wenn der Auftrag dem Lieferer nicht erteilt wird, diesem auf Verlangen unverzüglich zurückzugeben. Die Sätze 1 und 2 gelten entsprechend für Unterlagen des Bestellers; diese dürfen jedoch solchen Dritten zugänglich gemacht werden, denen der Lieferer zulässigerweise Lieferungen übertragen hat.
3. An Standardsoftware hat der Besteller das nicht ausschließliche Recht zur Nutzung mit den vereinbarten Leistungsmerkmalen in unveränderter Form auf den vereinbarten Geräten. Der Besteller darf ohne ausdrückliche Vereinbarung eine Sicherungskopie erstellen.
4. Teillieferungen sind zulässig, soweit sie dem Besteller zumutbar sind.
3. Kommt der Lieferer in Verzug, kann der Besteller - sofern er glaubhaft macht, dass ihm hieraus ein Schaden entstanden ist - eine Entschädigung für jede vollendete Woche des Verzuges von je 0,5 %, insgesamt jedoch höchstens 5% des Preises für den Teil der Lieferungen verlangen, der wegen des Verzuges nicht in zweckdienlichen Betrieb genommen werden konnte.
4. Sowohl Schadensersatzansprüche des Bestellers wegen Verzögerung der Lieferung als auch Schadensersatzansprüche statt der Leistung, die über die in Nr. 3 genannten Grenzen hinausgehen, sind in allen Fällen verzögerter Lieferung, auch nach Ablauf einer dem Lieferer etwa gesetzten Frist zur Lieferung, ausgeschlossen. Dies gilt nicht, soweit in Fällen des Vorsatzes, der groben Fahrlässigkeit oder wegen der Verletzung des Lebens, des Körpers oder der Gesundheit zwingend gehaftet wird. Vom Vertrag kann der Besteller im Rahmen der gesetzlichen Bestimmungen nur zurücktreten, soweit die Verzögerung der Lieferung vom Lieferer zu vertreten ist. Eine Änderung der Beweislast zum Nachteil des Bestellers ist mit den vorstehenden Regelungen nicht verbunden.
5. Der Besteller ist verpflichtet, auf Verlangen des Lieferers innerhalb einer angemessenen Frist zu erklären, ob er wegen der Verzögerung der Lieferung vom Vertrag zurücktritt oder auf die Lieferung besteht.
6. Werden Versand oder Zustellung auf Wunsch des Bestellers um mehr als einen Monat nach Anzeige der Versandbereitschaft verzögert, kann dem Besteller für jeden angefangenen Monat Lagergeld in Höhe von 0,5% des Preises der Gegenstände der Lieferungen, höchstens jedoch insgesamt 5% berechnet werden. Der Nachweis höherer oder niedrigerer Lagerkosten bleibt den Vertragsparteien unbenommen.

### II. Preise und Zahlungsbedingungen

1. Die Preise verstehen sich ab Werk ausschließlich Verpackung zuzüglich der jeweils geltenden gesetzlichen Umsatzsteuer.
2. Hat der Lieferer die Aufstellung oder Montage übernommen und ist nicht etwas anderes vereinbart, so trägt der Besteller neben der vereinbarten Vergütung alle erforderlichen Nebenkosten wie Reisekosten, Kosten für den Transport des Handwerkszeugs und des persönlichen Gepäcks sowie Auslösungen.
3. Zahlungen sind frei Zahlstelle des Lieferers zu leisten.
4. Der Besteller kann nur mit solchen Forderungen aufrechnen, die unbestritten oder rechtskräftig festgestellt sind.

### III. Eigentumsvorbehalt

1. Die Gegenstände der Lieferungen (Vorbehaltsware) bleiben Eigentum des Lieferers bis zur Erfüllung sämtlicher ihm gegen den Besteller aus der Geschäftsverbindung zustehenden Ansprüche. Soweit der Wert aller Sicherungsrechte, die dem Lieferer zustehen, die Höhe aller gesicherten Ansprüche um mehr als 20 % übersteigt, wird der Lieferer auf Wunsch des Bestellers einen entsprechenden Teil der Sicherungsrechte freigeben.
2. Während des Bestehens des Eigentumsvorbehalts ist dem Besteller eine Verpfändung oder Sicherungsübereignung untersagt und die Weiterveräußerung nur Wiederverkäufern im gewöhnlichen Geschäftsgang und nur unter der Bedingung gestattet, dass der Wiederverkäufer von seinem Kunden Bezahlung erhält oder den Vorbehalt macht, dass das Eigentum auf den Kunden erst übergeht, wenn dieser seine Zahlungsverpflichtungen erfüllt hat.
3. Bei Pfändungen, Beschlagnahmen oder sonstigen Verfügungen oder Eingriffen Dritter hat der Besteller den Lieferer unverzüglich zu benachrichtigen.
4. Bei Pflichtverletzungen des Bestellers, insbesondere bei Zahlungsverzug, ist der Lieferer nach erfolglosem Ablauf einer dem Besteller gesetzten angemessenen Frist zur Leistung zum Rücktritt und zur Rücknahme berechtigt; die gesetzlichen Bestimmungen über die Entbehrllichkeit einer Fristsetzung bleiben unberührt. Der Besteller ist zur Herausgabe verpflichtet.

### IV. Fristen für Lieferungen; Verzug

1. Die Einhaltung von Fristen für Lieferungen setzt den rechtzeitigen Eingang sämtlicher vom Besteller zu liefernden Unterlagen, erforderlichen Genehmigungen und Freigaben, insbesondere von Plänen, sowie die Einhaltung der vereinbarten Zahlungsbedingungen und sonstigen Verpflichtungen durch den Besteller voraus. Werden diese Voraussetzungen nicht rechtzeitig erfüllt, so verlängern sich die Fristen angemessen; dies gilt nicht, wenn der Lieferer die Verzögerung zu vertreten hat.
2. Ist die Nichteinhaltung der Fristen auf höhere Gewalt, z. B. Mobilmachung, Krieg, Aufruhr, oder auf ähnliche Ereignisse, z. B. Streik, Aussperrung, zurückzuführen, verlängern sich die Fristen angemessen.

### V. Gefahrübergang

1. Die Gefahr geht auch bei frachtfreier Lieferung wie folgt auf den Besteller über:
  - a) bei Lieferungen ohne Aufstellung oder Montage, wenn sie zum Versand gebracht oder abgeholt worden sind. Auf Wunsch und Kosten des Bestellers werden Lieferungen vom Lieferer gegen die üblichen Transportrisiken versichert;
  - b) bei Lieferungen mit Aufstellung oder Montage am Tage der Übernahme in eigenen Betrieb oder, soweit vereinbart, nach einwandfreiem Probebetrieb.
2. Wenn der Versand, die Zustellung, der Beginn, die Durchführung der Aufstellung oder Montage, die Übernahme in eigenen Betrieb oder der Probebetrieb aus vom Besteller zu vertretenden Gründen verzögert wird, oder der Besteller aus sonstigen Gründen in Annahmeverzug kommt, so geht die Gefahr auf den Besteller über.

### VI. Aufstellung und Montage

Für die Aufstellung und Montage gelten, soweit nichts anderes schriftlich vereinbart ist, folgende Bestimmungen:

1. Der Besteller hat auf seine Kosten zu übernehmen und rechtzeitig zu stellen:
  - a) alle Erd-, Bau- und sonstigen branchenfremden Nebearbeiten einschließlich der dazu benötigten Fach- und Hilfskräfte, Baustoffe und Werkzeuge,
  - b) die zur Montage und Inbetriebsetzung erforderlichen Bedarfsgegenstände und -stoffe, wie Gerüste, Hebezeuge und andere Vorrichtungen, Brennstoffe und Schmiermittel,
  - c) Energie und Wasser an der Verwendungsstelle einschließlich der Anschlüsse, Heizung und Beleuchtung,
  - d) bei der Montagestelle für die Aufbewahrung der Maschinenteile, Apparaturen, Materialien, Werkzeuge usw. genügend große, geeignete, trockene und verschleißbare Räume und für das Montagepersonal angemessene Arbeits- und Aufenthaltsräume einschließlich den Umständen angemessener sanitärer Anlagen; im Übrigen hat der Besteller zum Schutz des Besitzes des Lieferers und des Montagepersonals auf der Baustelle die Maßnahmen zu treffen, die er zum Schutz des eigenen Besitzes ergreifen würde,
  - e) Schutzkleidung und Schutzvorrichtungen, die infolge besonderer Umstände der Montagestelle erforderlich sind.
2. Vor Beginn der Montagearbeiten hat der Besteller die nötigen Angaben über die Lage verdeckt geführter Strom-, Gas-, Wasserleitungen oder ähnlicher Anlagen sowie die erforderlichen

statischen Angaben unaufgefordert zur Verfügung zu stellen.

3. Vor Beginn der Aufstellung oder Montage müssen sich die für die Aufnahme der Arbeiten erforderlichen Bestellungen und Gegenstände an der Aufstellungs- oder Montagestelle befinden und alle Vorarbeiten vor Beginn des Aufbaues so weit fortgeschritten sein, dass die Aufstellung oder Montage vereinbarungsgemäß begonnen und ohne Unterbrechung durchgeführt werden kann. Anfuhrwege und der Aufstellungs- oder Montageplatz müssen geebnet und geräumt sein.
4. Verzögern sich die Aufstellung, Montage oder Inbetriebnahme durch nicht vom Lieferer zu vertretende Umstände, so hat der Besteller in angemessenem Umfang die Kosten für Wartezeit und zusätzlich erforderliche Reisen des Lieferers oder des Montagepersonals zu tragen.
5. Der Besteller hat dem Lieferer wöchentlich die Dauer der Arbeitszeit des Montagepersonals sowie die Beendigung der Aufstellung, Montage oder Inbetriebnahme unverzüglich zu bescheinigen.
6. Verlangt der Lieferer nach Fertigstellung die Abnahme der Lieferung, so hat sie der Besteller innerhalb von zwei Wochen vorzunehmen. Geschieht dies nicht, so gilt die Abnahme als erfolgt. Die Abnahme gilt gleichfalls als erfolgt, wenn die Lieferung - gegebenenfalls nach Abschluss einer vereinbarten Testphase - in Gebrauch genommen worden ist.

### VII. Entgegennahme

Der Besteller darf die Entgegennahme von Lieferungen wegen unerheblicher Mängel nicht verweigern.

### VIII. Sachmängel

Für Sachmängel haftet der Lieferer wie folgt:

1. Alle diejenigen Teile oder Leistungen sind nach Wahl des Lieferers unentgeltlich nachzubessern, neu zu liefern oder neu zu erbringen, die innerhalb der Verjährungsfrist - ohne Rücksicht auf die Betriebsdauer - einen Sachmangel aufweisen, sofern dessen Ursache bereits im Zeitpunkt des Gefahrübergangs vorlag.
2. Sachmängelansprüche verjähren in 24 Monaten. Die Dauer von 24 Monaten gilt nicht, soweit das Gesetz gemäß §§ 438 Abs. 1 Nr. 2 (Bauwerke und Sachen für Bauwerke), 479 Abs. 1 (Rückgriffsanspruch) und 634a Abs. 1 Nr. 2 (Baumängel) BGB längere Fristen vorschreibt. Die gesetzlichen Regelungen über Ablaufhemmung, Hemmung und Neubeginn der Fristen bleiben unberührt.
3. Der Besteller hat Sachmängel gegenüber dem Lieferer unverzüglich schriftlich zu rügen.
4. Bei Mängelrügen dürfen Zahlungen des Bestellers in einem Umfang zurückgehalten werden, die in einem angemessenen Verhältnis zu den aufgetretenen Sachmängeln stehen. Der Besteller kann Zahlungen nur zurückhalten, wenn eine Mängelrüge geltend gemacht wird, über deren Berechtigung kein Zweifel bestehen kann. Erfolgte die Mängelrüge zu Unrecht, ist der Lieferer berechtigt, die ihm entstandenen Aufwendungen vom Besteller ersetzt zu verlangen.
5. Zunächst ist dem Lieferer Gelegenheit zur Nacherfüllung innerhalb angemessener Frist zu gewähren.
6. Schlägt die Nacherfüllung fehl, kann der Besteller - unbeschadet etwaiger Schadensersatzansprüche gemäß Art. XI - vom Vertrag zurücktreten oder die Vergütung mindern.
7. Mängelansprüche bestehen nicht bei nur unerheblicher Abweichung von der vereinbarten Beschaffenheit, bei nur unerheblicher Beeinträchtigung der Brauchbarkeit, bei natürlicher Abnutzung oder Schäden, die nach dem Gefahrübergang infolge fehlerhafter oder nachlässiger Behandlung, übermäßiger Beanspruchung, ungeeigneter Betriebsmittel, oder die aufgrund besonderer äußerer Einflüsse entstehen, die nach dem Vertrag nicht vorausgesetzt sind, sowie bei nicht reproduzierbaren Softwarefehlern. Werden vom Besteller oder von Dritten unsachgemäß Änderungen oder Instandsetzungsarbeiten vorgenommen, so bestehen für diese und die daraus entstehenden Folgen ebenfalls keine Mängelansprüche.
8. Ansprüche des Bestellers wegen der zum Zweck der Nacherfüllung erforderlichen Aufwendungen, insbesondere Transport-, Wege-, Arbeits- und Materialkosten, sind ausgeschlossen, soweit die Aufwendungen sich erhöhen, weil der Gegenstand der Lieferung nachträglich an einen anderen Ort als die Niederlassung

# Allgemeine Verkaufs- und Lieferbedingungen

## Garantiebedingungen 01/2011

des Bestellers verbraucht worden ist, es sei denn, die Verbringung entspricht seinem bestimmungsgemäßen Gebrauch.

- Rückgriffsansprüche des Bestellers gegen den Lieferer gemäß § 478 BGB (Rückgriff des Unternehmers) bestehen nur insoweit, als der Besteller mit seinem Abnehmer keine über die gesetzlichen Mängelansprüche hinausgehenden Vereinbarungen getroffen hat. Für den Umfang des Rückgriffsanspruchs des Bestellers gegen den Lieferer gemäß § 478 Abs. 2 BGB gilt ferner Nr. 8 entsprechend.
- Für Schadensersatzansprüche gilt im Übrigen Art. XI (Sonstige Schadensersatzansprüche). Weitergehende oder andere als die in diesem Art. VIII geregelten Ansprüche des Bestellers gegen den Lieferer und dessen Erfüllungsgehilfen wegen eines Sachmangels sind ausgeschlossen.

### VIII. Garantie

Wir verweisen auf unsere separaten Garantiebedingungen, die auf Wunsch gern ausgehändigt werden.

### IX. Gewerbliche Schutzrechte und Urheberrechte; Rechtsmängel

- Sofern nicht anders vereinbart, ist der Lieferer verpflichtet, die Lieferung lediglich im Land des Lieferorts frei von gewerblichen Schutzrechten und Urheberrechten Dritter (im Folgenden: Schutzrechte) zu erbringen. Sofern ein Dritter wegen der Verletzung von Schutzrechten durch vom Lieferer erbrachte, vertragsgemäß genutzte Lieferungen gegen den Besteller berechtigige Ansprüche erhebt, haftet der Lieferer gegen über dem Besteller innerhalb der in Art. VIII Nr. 2 bestimmten Frist wie folgt:
  - Der Lieferer wird nach seiner Wahl und auf seine Kosten für die betreffenden Lieferungen entweder ein Nutzungsrecht erwirken, sie so ändern, dass das Schutzrecht nicht verletzt wird, oder austauschen. Ist dies dem Lieferer nicht zu angemessenen Bedingungen möglich, stehen dem Besteller die gesetzlichen Rücktritts- oder Minderungsrechte zu.
  - Die Pflicht des Lieferers zur Leistung von Schadensersatz richtet sich nach Art. XI.
  - Die vorstehend genannten Verpflichtungen des Lieferers bestehen nur, soweit der Besteller den Lieferer über die vom Dritten geltend gemachten Ansprüche unverzüglich schriftlich verständigt, eine Verletzung nicht anerkennt und dem Lieferer alle Abwehrmaßnahmen und Vergleichsverhandlungen vorbehalten bleiben. Stellt der Besteller die Nutzung der Lieferung aus Schadensminderungs- oder sonstigen wichtigen Gründen ein, ist er verpflichtet, den Dritten darauf hinzuweisen, dass mit der Nutzungseinstellung kein Anerkenntnis einer Schutzrechtsverletzung verbunden ist.
- Ansprüche des Bestellers sind ausgeschlossen, soweit er die Schutzrechtsverletzung zu vertreten hat.
- Ansprüche des Bestellers sind ferner ausgeschlossen, soweit die Schutzrechtsverletzung durch spezielle Vorgaben des Bestellers, durch eine vom Lieferer nicht voraussehbare Anwendung oder dadurch verursacht wird, dass die Lieferung vom Besteller verändert oder zusammen mit nicht vom Lieferer gelieferten Produkten eingesetzt wird.
- Im Falle von Schutzrechtsverletzungen gelten für die in Nr. 1 a) geregelten Ansprüche des Bestellers im Übrigen die Bestimmungen des Art. VIII Nr. 4, 5 und 9 entsprechend.
- Bei Vorliegen sonstiger Rechtsmängel gelten die Bestimmungen des Art. VIII entsprechend.
- Weitergehende oder andere als die in diesem Art. IX geregelten Ansprüche des Bestellers gegen den Lieferer und dessen Erfüllungsgehilfen wegen eines Rechtsmangels sind ausgeschlossen.

### X. Unmöglichkeit; Vertragsanpassung

- Soweit die Lieferung unmöglich ist, ist der Besteller berechtigt, Schadensersatz zu verlangen, es sei denn, dass der Lieferer die Unmöglichkeit nicht zu vertreten hat. Jedoch beschränkt sich der Schadensersatzanspruch des Bestellers auf 10 % des Wertes desjenigen Teils der Lieferung, der wegen der Unmöglichkeit nicht in zweckdienlichen Betrieb genommen werden kann. Diese Beschränkung gilt nicht, soweit in Fällen des Vorsatzes, der groben Fahrlässigkeit oder wegen der Verletzung des Lebens, des Körpers oder der Gesundheit zwingend gehaftet wird; eine Änderung der Beweislast zum Nachteil des Bestellers ist hiermit

nicht verbunden. Das Recht des Bestellers zum Rücktritt vom Vertrag bleibt unberührt.

- Sofern unvorhersehbare Ereignisse im Sinne von Art. IV Nr. 2 die wirtschaftliche Bedeutung oder den Inhalt der Lieferung erheblich verändern oder auf den Betrieb des Lieferers erheblich einwirken, wird der Vertrag unter Beachtung von Treu und Glauben angemessen angepasst. Soweit dies wirtschaftlich nicht vertretbar ist, steht dem Lieferer das Recht zu, vom Vertrag zurückzutreten. Will er von diesem Rücktrittsrecht Gebrauch machen, so hat er dies nach Erkenntnis der Tragweite des Ereignisses unverzüglich dem Besteller mitzuteilen und zwar auch dann, wenn zunächst mit dem Besteller eine Verlängerung der Lieferzeit vereinbart war.

### XI. Sonstige Schadensersatzansprüche

- Schadens- und Aufwendungsersatzansprüche des Bestellers (im Folgenden: Schadensersatzansprüche), gleich aus welchem Rechtsgrund, insbesondere wegen Verletzung von Pflichten aus dem Schuldverhältnis und aus unerlaubter Handlung, sind ausgeschlossen, soweit nicht Vorsatz oder grobe Fahrlässigkeit vorliegt oder wegen der Verletzung des Lebens, des Körpers oder der Gesundheit gehaftet wird.
- Dies gilt nicht, soweit zwingend gehaftet wird, z. B. nach dem Produkthaftungsgesetz, in Fällen des Vorsatzes, der groben Fahrlässigkeit, wegen der Verletzung des Lebens, des Körpers oder der Gesundheit, wegen der Verletzung wesentlicher Vertragspflichten. Der Schadensersatzanspruch für die Verletzung wesentlicher Vertragspflichten ist jedoch auf den vertragstypischen, vorhersehbaren Schaden begrenzt, soweit nicht Vorsatz oder grobe Fahrlässigkeit vorliegt oder wegen der Verletzung des Lebens, des Körpers oder der Gesundheit gehaftet wird. Eine Änderung der Beweislast zum Nachteil des Bestellers ist mit den vorstehenden Regelungen nicht verbunden.
- Soweit dem Besteller nach diesem Art. XI Schadensersatzansprüche zustehen, verjähren diese mit Ablauf der für Sachmängelansprüche geltenden Verjährungsfrist gemäß Art. VIII Nr. 2. Bei Schadensersatzansprüchen nach dem Produkthaftungsgesetz gelten die gesetzlichen Verjährungsvorschriften.

### XII. Gerichtsstand und anwendbares Recht

- Alleiniger Gerichtsstand ist, wenn der Besteller Kaufmann ist, bei allen aus dem Vertragsverhältnis unmittelbar oder mittelbar sich ergebenden Streitigkeiten der Sitz des Lieferers. Der Lieferer ist jedoch auch berechtigt, am Sitz des Bestellers zu klagen.
- Für die Rechtsbeziehungen im Zusammenhang mit diesem Vertrag gilt deutsches materielles Recht unter Ausschluss des Übereinkommens der Vereinten Nationen über Verträge über den internationalen Warenkauf (CISG).

### XIII. Verbindlichkeit des Vertrages

Der Vertrag bleibt auch bei rechtlicher Unwirksamkeit einzelner Bestimmungen in seinen übrigen Teilen verbindlich. Das gilt nicht, wenn das Festhalten an dem Vertrag eine unzumutbare Härte für eine Partei darstellen würde.

### XIV. Katalogangaben

Es gelten nur die jeweils im Zeitpunkt des Vertragsabschlusses gültigen Kataloge des Lieferers. Alle vorangegangenen Kataloge und die dort gemachten Angaben verlieren durch den bei Vertragsabschluss geltenden Katalog ihre Gültigkeit. Alle im Katalog genannten technischen Werte der Produkte des Lieferers geben durchschnittlich ermittelte Ergebnisse elektronischer Betriebsdaten wieder.

### Garantiebedingungen 01/2011

- Unbeschadet der in gesetzlichen Regelungen begründeten Sachmängelhaftung übernimmt der Lieferer für die von ihm gelieferten Produkte eine Haltbarkeitsgarantie gemäß den nachfolgenden Bedingungen:
- Der Lieferer garantiert die Mängelfreiheit der unter dem Markennamen und in Verpackung „HÜCO“ gelieferten Waren über einen Zeitraum von 60 Monaten, die Mängelfreiheit aller anderen Waren über einen Zeitraum von 36 Monaten, jeweils gerechnet ab Lieferung der Sache. Ausgenommen sind Verschleißteile, die Teile der vom Lieferer gelieferten Produkte sein können.

- Die Garantie erstreckt sich nur auf Sachmängel, die auf Material- oder Herstellungsfehler zurückzuführen sind, nicht hingegen auf Verschlechterungen der gelieferten Sache durch üblichen Verschleiß. Ausgenommen sind ferner unerhebliche Abweichungen von der vereinbarten Beschaffenheit, unerhebliche Beeinträchtigungen der Brauchbarkeit, natürliche Abnutzung und Schäden, die nach der Gebrauchsüberlassung in Folge fehlerhafter oder nachlässiger Behandlung, übermäßiger Beanspruchung, ungeeigneter Betriebsmittel oder auf Grund besonderer äußerer Einflüsse entstehen. Ebenfalls ausgenommen sind nicht vom Lieferer verbaute und/oder nicht vom Lieferer freigegebene Bauteile sowie Schäden in Folge der Verwendung derartiger Bauteile sowie generell Schäden in Folge von Reparaturen oder Reparaturversuchen, die nicht vom Lieferer oder von diesem autorisierten Personen unternommen wurden, sowie Schäden durch sonstige eigenmächtige Eingriffe in das Bauteil. Ausgenommen sind ferner Schäden durch chemische oder elektrochemische Einwirkung, unsachgemäße Verwendung, fehlerhaften Einbau oder Anschluss, extreme Witterungseinflüsse, Nichtbeachtung der Montage- und Wartungseinleitung sowie nicht vom Lieferer zu vertretende Transportschäden.
- Auf Grund der Garantie liefert der Lieferer in von der Garantie erfassten Fällen nach seiner Wahl Ersatz für die mangelhafte Sache oder beseitigt den Mangel. Voraussetzung ist eine unverzüglich schriftliche Mängelrüge des Bestellers, die den Mangel möglichst klar beschreibt. Erfolgte die Mängelrüge zu Unrecht, ist der Lieferer berechtigt, Ersatz der ihm durch die und in Folge der unberechtigten Mängelrüge entstandenen Aufwendungen zu verlangen.
- Diese Garantie deckt weder die Kosten für den Transport des Produkts im Garantiefall zum Hersteller noch mit dem Transport zusammenhängenden Risiken.
- Weitergehende oder andere Ansprüche, insbesondere solche auf Ersatz außerhalb des Liefergegenstandes entstandener Schäden, sind im Rahmen dieser Garantie ausgeschlossen, können aber ggf. aufgrund gesetzlicher Haftungstatbestände bestehen.

HÜCO Automotive GmbH

# Sales and Supply Conditions

## Guarantee Terms 01/2011

### I. General

1. The scope of deliveries and/or services (hereinafter referred to as „Supplies“) shall be determined by the written declarations of both Parties. General terms and conditions of the Purchaser shall apply only if and when expressly accepted by the supplier or the provider of services (hereinafter referred to as „Supplier“) in writing.
2. The Supplier herewith reserves any industrial property rights and/or copyrights pertaining to its cost estimates, drawings and other documents (hereinafter referred to as „Documents“). The Documents shall not be made accessible to third parties without the Supplier's prior consent and shall, upon request, be returned without Undue delay to the Supplier if the contract is not awarded to the Supplier. Sentences 1 and 2 shall apply mutatis mutandis to documents of the Purchaser; these may, however, be made accessible to third parties to whom the Supplier may rightfully transfer Supplies.
3. The Purchaser shall have the non-exclusive right to use standard software, provided that it remains unchanged, is used within the agreed performance parameters, and on the agreed equipment. The Purchaser may make one back-up copy without express agreement.
4. Partial Supplies shall be allowed, unless they are unreasonable to accept for the Purchaser.

### II. Prices and terms of payment

1. Prices shall be ex works and exclude packaging; value added tax shall be added at the then applicable rate.
2. If the Supplier is also responsible for assembly or erection and unless otherwise agreed, the Purchaser shall pay the agreed remuneration and any incidental costs required, e. g. travel costs, costs for the transport of tools and equipment, and personal luggage as well as allowances.
3. Payments shall be made free Supplier's paying office.
4. The Purchaser may set off only those claims that are undisputed or against which no legal recourse is possible.

### III. Retention of title

1. Items pertaining to the Supplies („Retained Goods“) shall remain the property of the Supplier until each and every claim the Supplier has against the Purchaser on account of the business connection has been fulfilled. If the combined value of the security interests of the Supplier exceeds the value of all secured claims by more than 20 %, the Supplier shall release a corresponding part of the security interest if so requested by the Purchaser.
2. For the duration of the retention of title, the Purchaser may not pledge the Retained Goods or use them as security, and resale shall be possible only for resellers in the ordinary course of their business and only on condition that the reseller receives payment from its customer or makes the transfer of property to the customer dependent upon the customer fulfilling its obligation to effect payment.
3. The Purchaser shall inform the Supplier forthwith of any seizure or other act of intervention by third parties.
4. Where the Purchaser fails to fulfil its duties, including failure to make payments due, the Supplier shall be entitled to cancel the contract and take back the Retained Goods in the case of continued failure following expiry of a reasonable time set by the Supplier; the statutory provisions that a time limit is not needed remain unaffected. The Purchaser shall be obliged to surrender the Retained Goods.

### IV. Time for supplies; delay

1. Times set for Supplies can only be observed if all Documents to be supplied by the Purchaser, necessary permits and releases, especially concerning plans, are received in time and if agreed terms of payment and other obligations of the Purchaser are fulfilled. Unless these conditions are fulfilled in time, times set shall be extended appropriately; this shall not apply where the Supplier is responsible for the delay.
2. If non-observance of the times set is due to force majeure such as mobilization, war, rebellion or similar events, e. g. strike or lockout, such time shall be extended accordingly.
3. If the Supplier is responsible for the delay (hereinafter referred to as „Delay“) and the Purchaser demonstrably suffered a loss there from, the Purchaser may claim a compensation as liquidated damages of 0.5 % for every completed week of Delay, but in no case more than a total of 5 % of the price of that part

of the Supplies which because of the Delay could not be put to the intended use.

4. Purchaser's claims for damages due to delayed Supplies as well as claims for damages in lieu of performance exceeding the limits specified in No. 3 above shall be excluded in all cases of delayed Supplies even upon expiry of a time set to the Supplier to effect the Supplies. This shall not apply in cases of mandatory liability based on intent, gross negligence, or due to injury of life, body or health. Cancellation of the contract by the Purchaser based on statute shall be limited to cases where the Supplier is responsible for the delay. The above provisions do not imply a change in the burden of proof to the detriment of the Purchaser.
5. At the Supplier's request the Purchaser shall declare within a reasonable period of time whether the Purchaser cancels the contract due to the delayed Supplies or insists on the Supplies to be carried out.
6. If dispatch or shipment is delayed at the Purchaser's request by more than one month after notice of the readiness for dispatch was given, the Purchaser may be charged, for every month commenced, storage costs of 0.5 % of the price of the items of the Supplies, but in no case more than a total of 5 %. The parties to the contract may prove that higher or, as the case may be, lower storage costs have been incurred.

### V. Transfer of risk

1. Even where delivery has been agreed freight free, the risk shall pass to the Purchaser as follows:
  - a) if the Supplies do not include assembly or erection, at the time when the Supplies are shipped or picked up by the carrier. Upon request of the Purchaser, the Supplier shall insure the Supplies against the usual risks of transport at the expense of the Purchaser;
  - b) if the Supplies include assembly or erection, at the day of taking over in the own works or, if so agreed, after a fault-free trial run.
2. The risk shall pass to the Purchaser if dispatch, shipping, the start or performance of assembly or erection, the taking over in the own works or the trial run is delayed for reasons for which the Purchaser is responsible or if the Purchaser has otherwise failed to accept the Supplies.

### VI. Assembly and erection

Unless otherwise agreed in writing, assembly/erection shall be subject to the following provisions:

1. The Purchaser shall provide at its own expense and in good time:
  - a) all earth and construction work and other ancillary work outside the scope of the Supplier, including the necessary skilled and unskilled labour, construction materials and tools,
  - b) the equipment and materials necessary for assembly and commissioning such as scaffolds, lifting equipment and other devices as well as fuels and lubricants,
  - c) energy and water at the point of use including connections, heating and lighting,
  - d) suitable dry and lockable rooms of sufficient size adjacent to the site for the storage of machine parts, apparatus, materials, tools, etc. and adequate working and recreation rooms for the erection personnel, including sanitary facilities as are appropriate in the specific circumstances. Furthermore, the Purchaser shall take all measures it would take for the protection of its own possessions to protect the possessions of the Supplier and of the erection personnel at the site, e) protective clothing and protective devices needed due to particular conditions prevailing on the specific site.
2. Before the erection work starts, the Purchaser shall make available of its own accord any information required concerning the location of concealed electric power, gas and water lines or of similar installations as well as the necessary structural data.
3. Prior to assembly or erection, the materials and equipment necessary for the work to start must be available on the site of assembly/erection and any preparatory work must have advanced to such a degree that assembly/erection can be started as agreed and carried out without interruption. Access roads and the assembly/ erection site itself must be level and clear.
4. If assembly, erection or commissioning is delayed due to circumstances for which the Supplier is not responsible, the Purchaser shall bear the reasonable costs incurred for idle times and any

additional travelling of the Supplier or the erection personnel.

5. The Purchaser shall attest to the hours worked by the erection personnel towards the Supplier at weekly intervals and the Purchaser shall immediately confirm in writing if assembly, erection or commissioning has been completed.
6. If, after completion, the Supplier demands acceptance of the Supplies, the Purchaser shall comply therewith within a period of two weeks. In default thereof, acceptance is deemed to have taken place. Acceptance is also deemed to have been effected if the Supplies are put to use, after completion of an agreed test phase, if any.

### VII. Receiving of supplies

The Purchaser shall not refuse to receive Supplies due to minor defects.

### VIII. Defects as to quality

The Supplier shall be liable for defects as to quality („Sachmängel“, hereinafter referred to as „Defects“) as follows:

1. All parts or services where a Defect becomes apparent within the limitation period shall, at the discretion of the Supplier, be repaired, replaced or provided again free of charge irrespective of the hours of operation elapsed, provided that the reason for the Defect had already existed at the time when the risk passed.
2. Claims based on Defects are subject to a limitation period of months. These provisions shall not apply where longer periods are prescribed by law according to Sec. 438 para. 1 No. 2 (buildings and things used for a building), Sec. 479 para. 1 (right of recourse), and Sec. 634a para. 1 No. 2 (defects of a building) German Civil Code („BGB“), as well as in cases of injury of life, body or health, or where the Supplier intentionally or grossly negligently fails to fulfil its obligation or fraudulently conceals a Defect. The legal provisions regarding suspension of expiration („Ablaufhemmung“), suspension („Hemmung“) and recommencement of limitation periods remain unaffected.
3. The Purchaser shall notify Defects to the Supplier in writing and without undue delay.
4. In the case of notification of a Defect, the Purchaser may withhold payments to a reasonable extent taking into account the Defect occurred. The Purchaser, however, may withhold payments only if the subject-matter of the notification of the Defect occurred is justified beyond doubt. Unjustified notifications of Defect shall entitle the Supplier to have its expenses reimbursed by the Purchaser.
5. The Supplier shall first be given the opportunity to supplement its performance („Nacherfüllung“) within a reasonable period of time.
6. If supplementary performance is unsuccessful, the Purchaser shall be entitled to cancel the contract or reduce the remuneration, irrespective of any claims for damages it may have according to Art. XI.
7. There shall be no claims based on Defect in cases of insignificant deviations from the agreed quality, of only minor impairment of usefulness, of natural wear and tear or damage arising after the transfer of risk from faulty or negligent handling, excessive strain, unsuitable equipment, defective workmanship or from particular external influences not assumed under the contract, or from non-reproducible software errors. Claims based on defects attributable to improper modifications or repair work carried out by the Purchaser or third parties and the consequences thereof shall be likewise excluded.
8. The Purchaser shall have no claim with respect to expenses incurred in the course of supplementary performance, including costs of travel and transport, labour, and material, to the extent that expenses are increased because the subject-matter of the Supplies was subsequently brought to another location than the Purchaser's branch office, unless doing so complies with the intended use of the Supplies.
9. The Purchaser's right of recourse against the Supplier pursuant to Sec. 478 BGB is limited to cases where the Purchaser has not concluded an agreement with its customers exceeding the scope of the statutory provisions governing claims based on Defects. Moreover, No. 8 above shall apply mutatis mutandis to the scope of the right of recourse the Purchaser has against the Supplier pursuant to Sec. 478 para. 2 BGB.
10. Furthermore, the provisions of Art. XI (Other Claims for Damages) shall apply in respect of claims of damages. Any other claims

of the Purchaser against the Supplier or its agents or any such claims exceeding the claims provided for in this Art. VIII, based on a Defect, shall be excluded.

### VIII a) Guarantee

Our guarantee terms apply. They are available upon request.

### IX. Industrial property rights and copyright; defects in title

1. Unless otherwise agreed, the Supplier shall provide the Supplies free from third parties' industrial property rights and copyrights (hereinafter referred to as „IPR“) with respect to the country of the place of destination. If a third party asserts a justified claim against the Purchaser based on an infringement of an IPR with respect to the Supplies made by the Supplier and then used in conformity with the contract, the Supplier shall be liable to the Purchaser within the time period stipulated in Art. VIII No. 2 as follows:
  - a) The Supplier shall choose whether to acquire, at its own expense, the right to use the IPR with respect to the Supplies concerned or whether to modify the Supplies such that they no longer infringe the IPR or replace them. If this would be unreasonable to demand from the Supplier, the Purchaser may cancel the contract or reduce the remuneration pursuant to the applicable statutory provisions.
  - b) The Supplier's liability to pay damages shall be governed by Art. XI.
  - c) The above obligations of the Supplier shall only apply if the Purchaser (i) immediately notifies the Supplier of any such claim asserted by the third party in writing, (ii) does not concede the existence of an infringement and (iii) leaves any protective measures and settlement negotiations to the discretion of the Supplier. If the Purchaser stops using the Supplies in order to reduce the damage or for other good reason, it shall be obliged to point out to the third party that no acknowledgement of the alleged infringement may be inferred from the fact that the use has been discontinued.
2. Claims of the Purchaser shall be excluded if it is itself responsible for the infringement of an IPR.
3. Claims of the Purchaser shall also be excluded if the infringement of the IPR is caused by specifications made by the Purchaser, to a type of use not foreseeable by the Supplier or to the Supplies being modified by the Purchaser or being used together with products not provided by the Supplier.
4. In addition, with respect to claims by the Purchaser pursuant to No. 1 a) above, Art VIII Nos. 4, 5, and 9 shall apply mutatis mutandis in the event of an infringement of an IPR.
5. Where other defects in title occur, Art. VIII shall apply mutatis mutandis.
6. Any other claims of the Purchaser against the Supplier or its agents or any such claims exceeding the claims provided for in this Art. IX, based on a defect in title, shall be excluded.

### X. Impossibility of performance; adaption of contract

1. To the extent that Supplies are impossible to be carried out, the Purchaser shall be entitled to claim damages, unless the Supplier is not responsible for the impossibility. The Purchaser's claim for damages shall, however, be limited to an amount of 10 % of the value of the part of the Supplies which, owing to the impossibility, can not be put to the intended use. This limitation shall not apply in the case of mandatory liability based on intent, gross negligence or injury of life, body or health; this does not imply a change in the burden of proof to the detriment of the Purchaser. The right of the Purchaser to cancel the contract shall remain unaffected.
2. Where unforeseeable events within the meaning of Art. IV No. 2 substantially change the economic importance or the contents of the Supplies or considerably affect the Supplier's business, the contract shall be adapted taking into account the principles of reasonableness and good faith. Where doing so is economically unreasonable, the Supplier shall have the right to cancel the contract. If the Supplier intends to exercise its right to cancel the contract, it shall notify the Purchaser thereof without undue delay after having realised the repercussions of the event; this shall also apply even where an extension of the delivery period had previously been agreed with the Purchaser.

### XI. Other claim es for damages

1. Any claims for damages and reimbursement of expenses the Purchaser may have (hereinafter referred to as „Claims for Damages“), based on whatever legal reason, including infringement of duties arising in connection with the contract or tort, shall be excluded.
2. The above shall not apply in the case of mandatory liability, e.g. under the German Product Liability Act („Produkthaftungsgesetz“), in the case of intent, gross negligence, injury of life, body or health, or breach of a condition which goes to the root of the contract („wesentliche Vertragspflichten“). However, Claims for Damages arising from a breach of a condition which goes to the root of the contract shall be limited to the foreseeable damage which is intrinsic to the contract, unless caused by intent or gross negligence or based on liability for injury of life, body or health. The above provision does not imply a change in the burden of proof to the detriment of the Purchaser.
3. To the extent that the Purchaser has a valid Claim for Damages according to this Art. XI, it shall be time-barred upon expiration of the limitation period applicable to Defects pursuant to Art. VIII No. 2. In the case of claims for damages under the German Product Liability Act, the statutory provisions governing limitation periods shall apply.

### XII. Venue and applicable law

1. If the Purchaser is a businessperson, sole venue for all disputes arising directly or indirectly out of the contract shall be the Supplier's place of business. However, the Supplier may also bring an action at the Purchaser's place of business.
2. Legal relations existing in connection with this contract shall be governed by German substantive law, to the exclusion of the United Nations Convention on Contracts for the International Sale of Goods (CISG).

### XIII. Severability clause

The legal invalidity of one or more provisions of this contract shall in no way affect the validity of the remaining provisions. This shall not apply if it would be unreasonable for one of the parties to continue the contract.

### XIV. Catalogue information

Only the catalogue valid at the time of the conclusion of the contract shall apply. All previous catalogues and the information therein shall be rendered invalid by the catalogue applicable at the time of concluding the contract.

All technical values of the supplier's product stated in the catalogue are average values determined from electronically-held operational data.

### Guarantee Terms 01/2011

1. The following guarantee terms shall apply to any products supplied by the Supplier. Statutory warranty rights (supplementary performance, rescission or reduction of the purchase price, damages) are not affected by this guarantee. This guarantee shall be considered as a voluntary promise by the Supplier towards the purchaser and shall not affect the seller's warranty obligation under the contract of sale with the purchaser.
2. From the date of delivery to the purchaser, Supplier grants a 60 months' guarantee period for products labelled „HÜCO“ and with HÜCO branded package, and a 36 months' guarantee period for any other of Supplier's products. Wear and tear parts, which may be components of Supplier's products, are excluded from this guarantee.
3. This guarantee covers solely defects as to quality, i.e. material defects or manufacturing defects. Wear and tear is excluded from the guarantee, as are insignificant deviations from the agreed quality, only minor impairment of usefulness, damage arising after the transfer of risks from faulty or negligent handling, excessive strain, unsuitable equipment, defective workmanship and from particular external influences not assumed under the contract. Furthermore, the guarantee does not cover components which were not integrated and/or not approved by Supplier and the consequences thereof. Defects or damage arising from repair work carried out by third parties – i.e. by anybody else than Supplier or his authorized contractors – or from other unauthorized

interventions shall be likewise excluded, as well as defects due to chemical or electrochemical exposure, inappropriate utilization, defective installation or connection, extreme atmospheric exposure, non-observance of installation instructions or maintenance guidelines and damage in transit.

4. In case of a defect, the purchaser is obliged to inform Supplier of the defect in writing and without undue delay, describing the alleged defect. If the defect is covered by this guarantee, Supplier will, in his discretion, provide subsequent performance or repair the defect product. In case of no defect covered by this guarantee, purchaser is obliged to compensate Supplier for his expenses induced by the notice of defects.

5. This guarantee does not cover transport costs for sending the defect product to the supplier, nor the risks of loss and damage during this transport.

6. Other or further claims, in particular claims for compensation beyond the damage to the product, shall be excluded unless the law or contractual terms provide for mandatory liability.
